

# The Next Generation in Multi-Purpose Solution Technology

# RevitaLens ocutec™

Multi-Purpose  
Disinfecting Solution

Rethink disinfection for greater reliability as well as practitioner and patient assurance.

- Peroxide-quality disinfection with the convenience of a multi-purpose solution<sup>1</sup>
- Excellent lens cleaning<sup>3,5,8</sup>
- Conditions the lenses for increased lens-wearing comfort<sup>3,5,7,8</sup>
- Compatible with silicone hydrogel and soft contact lenses<sup>4,8</sup>

**Peroxide-quality disinfection.<sup>1</sup>**  
**MPDS convenience.**

# RevitaLens ocutec™

Multi-Purpose  
Disinfecting Solution

Unique Formula provides  
Intelligent Disinfection

## Disinfection

- Broad-spectrum disinfection comparable to peroxide<sup>1,8</sup>
- Superior antimicrobial efficacy against clinical isolates<sup>1,8</sup>
- Highly effective against *Acanthamoeba* and *Fusarium*<sup>1,8</sup>
- Sustains antimicrobial activity in lens case over time, even under non-compliant conditions<sup>2,8</sup>

## Ocular Integrity & Compatibility

- Low rates of corneal staining and adverse events<sup>3,6</sup>
- Less cytotoxic and maintains better cell viability and barrier function than any leading lens solution<sup>4,8</sup>
- Excellent compatibility with silicone hydrogel lenses (SiHy)<sup>3,4,8</sup>

## Lens Cleanliness & Increased Comfort

- Highly effective protein removal for a variety of SiHy and soft contact lenses<sup>5</sup>
- Excellent lens cleaning and compatibility<sup>3,4,8</sup>
- Conditions the lenses<sup>7</sup>
- Increases ocular comfort<sup>3,5</sup>

Warnings and Safety Indications: Problems with contact lenses and lens care products could result in corneal infection and/or ulcers and lead to loss of vision. It is essential that patients follow the directions and labeling instructions for proper use and care of their contact lenses, lens case, and lens care products. Please see additional information included in the product carton. RevitaLens OcuTec™ Multi-Purpose Disinfecting Solution is indicated for the care of, soft (hydrophilic) contact lenses, including silicone hydrogel lenses. Use this product, as recommended by your eye care practitioner, to disinfect, clean, rinse, store, remove protein, and condition.
