

Dear NVDO Family,

Our top priority is the health and safety of our patients and team as concerns regarding the Coronavirus (COVID-19) continue to grow. We encourage you to continue to come into our office for your scheduled appointments. We are proactively taking steps to ensure your continued health as well as ours. We have always taken patient care and cleanliness seriously. Our protocols include specific sterilization of medical equipment, telephones and examination rooms. Our team has been instructed to continue to follow these protocols and expand to include all common areas at increased frequency in order to take extra precautions during this time.

We are continuing to monitor updates, recommendations and guidelines of the CDC, World Health Organization and Virginia Department of Health. Please utilize the hand sanitizer that we have provided when entering the office.

In order to better protect our patients and team, we ask that you please call our office prior to your appointment if you are experiencing any flu-like symptoms in the past 12 days or have been exposed to someone who has experienced symptoms.

Thank you for your cooperation.

Sincerely,

Northern Virginia Doctors of Optometry
